**1.RATIONALE**

The human person, though made of body and soul, is a unity... The human body shares in the dignity of the image of God: it is a human body precisely because it is animated by a spiritual soul, and it is the whole human person that is intended to become, in the body of Christ, a temple of the Spirit.

‘Catholic schools contribute to the development of our young through education, particularly to their formation in Christian conscience and virtue’ (Mandate, 6). Students in Catholic schools are educated to understand that they are physical/spiritual beings in relationship with God. Catholic schools encourage students to make responsible choices for their lives including healthy food choices.

Catholic schools have a legislative responsibility to provide appropriate levels of care to students in the education environment.
