Virtue of the month- Cleanliness - is washing often, keeping your body clean and wearing clean clothes. It makes you pleasant to be around and protects you from disease. Washing your hands before you eat and after you use the toilet keeps away germs that cause disease. Being clean means using a tissue and covering your mouth when you sneeze to help stop germs from spreading. It also means keeping your body free of harmful drugs.

Message from Ms O'Keefe re: Kinetic Education Package

Please be assured that Assumption CPS families are under no obligation to take up any advertised offers received through the school from Kinetic Education this week. Also it is our understanding that the free resources which Kinetic Education is offering to provide to the school are completely independent of any responses which parents may or may not make to the company.

Please note: Assumption prides itself on being a school which promotes healthy eating habits. With this in mind, we ask that parents refrain from sending lollies to classes for their children to eat or for birthday treats. Thank you.

Notes this week:
