Virtue of the month

Honesty – is being open, trustworthy and truthful. When people are honest, they can be relied upon not to lie, cheat or to steal. It is admitting mistakes even if you know someone might be angry or disappointed. Being honest means you do not pretend to be something you are not. With honesty you can trust things to be as they appear. "*Honesty is contagious, just like dishonesty. We need more honesty in the world."*Anne Wilson Scharfe
